LEOCH INTERNATIONAL TECHNOLOGY LIMITED

About LEOCH BATTERY

Founded in 1999, LEOCH BATTERY (stock code: 00842.HK) is a leading provider of advanced battery power & energy management solutions, delivering reliable & efficient energy to industries, data centers, cities and infrastructure across the world.

Headquartered in Singapore, we operate 21 state-of-the-art manufacturing facilities and maintain a global network of 80+ service companies, serving clients in over 150 countries. Our team of 15,000 professionals, including 1,500+ R&D and technical experts, drives innovation and ensures the highest standards of quality and reliability.

Expertise in Battery Power & Smart Energy Solutions

At LEOCH, we deliver quality power solutions built to perform across industrial and commercial applications. Our expertise includes:

Battery Energy Storage Systems (BESS): Industrial, commercial, residential, grid-side, and renewable energy solutions.

Telecom & Data Centre Backup Power Solutions: Reliable & quality power for mission-critical network power, UPS and AI data center power applications.

Automotive Power Solutions: Start-stop, lighting and ignition batteries for ICE & EV cars, motorcycles, etc.

Motive Power Solutions: Golf cart, bicycle & tricycle, material handling and forklifts.

Battery Recycling: Sustainable recycling solutions for a greener future.

At LEOCH BATTERY, we are committed to innovation, reliability, and sustainability, ensuring that our clients and partners across the globe receive reliable and efficient power and smart energy solutions.

Our Solutions

Focusing on providing professional power solutions for industrial and commercial applications, the company's products and services are:

With a strong commitment to energy efficiency, reliability, and sustainability, Leoch is dedicated to delivering innovative and dependable power solutions for a wide range of scenarios.

Our Products

Telecom and Data Center Power Solutions

Leoch backup power solutions are frequently utilized in Data Centers, Communication, UPS, Electric Power, Security, Industrial Equipment and switches. 9 of the top 10 global communications operators use Leoch batteries. Leoch lithium ion and lead acid battery are indispensable in the backup power sources of data centers, nuclear power plants, hospitals, and banks because of their benefits to safety and stability.

Network Power Lithium Battery

Data Center

48V Intelligent Telecom

48V Telecom

48V GPS Telecom

Easy Installation

Environmentally friendly and safety

Intelligent BMS management system

Excellent high/low temperature performance

Long cycle life, low self-discharge, high energy density

Network Power Lead Battery

Telecom Power

Long standby time
Long design life

- AGM: 16 years
- OPzS & OPzV: 20 years
- Pure lead: 20 years, 1C fast charge

Data Center Power

30% higher power
Long life,
design life of 12 years

Renewable Energy Sector

Long PSOC life, Designed for tough environments

- GEL: 3600@30%DOD
- OPzS & OPzV: 5400@30%DOD

Energy Storage System

Energy storage system is a crucial component of the power system "mining - generation - transmission - distribution - use - storage", and is the cornerstone of the new energy micro-grid, which can help achieve smooth power transition, load shifting, frequency and voltage regulation.

With its extensive experience in cell design, PACK production, energy storage module manufacturing, and system integration, Leoch is well-equipped to provide a wide range of energy storage solutions, including home energy storage systems, commercial and industrial energy storage systems, as well as large-scale energy storage systems.

Residential Energy Storage System

Starting Power Solutions

Automotive OEM support and after-sales markets for new energy vehicles, fuel-powered & hybrid passenger cars, and fuel-powered commercial vehicles comprise the primary application of automotive starting systems.

Leoch's automotive starting power offers a comprehensive range of models, each with a 5-10% higher capacity, ensuring compatibility with the entire mainstream lineup.

Automotive Battery

High CCA, DCA, MHT application, Maintenance Free;
Low self-discharge rate, 3%~5%/m;
Corrosion resistance, wide range of use (AS/-
JIS/DIN/BCI Series cover different models).

Commercial Vehicle Battery

Premium Lithium & advanced AGM options
High CCA for instant sub-zero starts
Extended capacity for Parking AC systems
V4-grade vibration resistance for any road condition
OE-level quality & durability

Motorcycle Lead-acid Battery

Excellent high current discharge and start performance;
Low self-discharge rate, 3%~5%/m;
Excellent vibration resistance ;
Corrosion resistance, wide range of use.

Motorcycle Lithium Battery

Strong starting ability;
Excellent vibration resistance;
Light weight (1/3 of the weight of lead acid battery);
Excellent discharge performance, max. 30C of discharge rate.

Motive Power Solutions

Leoch motive power solution applications mainly include low-speed electric vehicles, automated guided vehicles, special equipment motive OEM manufacturers and aftermarket parts. More than 10,000 self-discharge tests, 100+ quality testing criteria, and 26 core process technologies all work together to guarantee the stability, dependability, and safety of the final product.

Motive Power Lead Battery

Low self-discharge rate, long life
Excellent high current discharge performance
Superior deep discharge recovery performance

Motive Power Lithium Battery

Long life
Fast charging
Environmental Friendly

Sustainability

Applications

Manufacturing

Recycling

R&D

Reuse

Leoch has a number of recycling-qualified subsidiaries. Integrating the concept of green sustainable development into the whole process of operation, from "R&D - manufacturing - application - recycling - reuse" to achieve a closed lead battery chain, making energy recyclable and renewable.

Market Performance

Leoch offers a versatile range of over 3,000 product categories, allowing us to address a wide spectrum of application scenarios. We have also built enduring partnerships with leading international corporations in the UPS, data center, new energy, and communication industries.

Leoch has received numerous honors from German, American, and Chinese automakers and is a certified supplier to them: Award for Special Contribution to Foton Daimler, Excellent Quality Supplier to Jaguar Land Rover, Excellent Quality Award to Chery Jaguar Land Rover, Supplier Quality Award to Geely Auto, Quality Improvement Excellence Award to SAIC-GM, Best Quality Award to SAIC-GM Wuling.
